And Many More!

“The kids love it – they all say it’s ‘cool.’ Every time I pass through the children’s area it is being used. I’ve seen groups of children, as well as a parent and child playing... Staff love it. The children love it. And the parents also seem to enjoy it. I’m very glad we added this to our interactive play-learning activities in our children’s area!”

-- *Library Manager, Kingsport Public Library*

“Our PLAY touch table has been a hit from day one. Kids of all ages flock to it and are able to navigate the games all on their own. Our staff love the PLAY table too as it is the most hands off technology in the Library. No shutting it down at night, running updates, or troubleshooting cords or sound. Definitely a good investment..”

-- *Head of Youth Services, Grimes Public Library*
